WHO WE ARE

We provide patented, odor control technologies and turn key distribution models in the multi-billion dollar odor control market.

Our proprietary odor management equipment and systems are sold and serviced through a large network of licensed distribution partners in over 20 countries.

Odor Control Applications	Wastewater Solid Waste Commercial Industrial
----------------------------------	---

CORE PRODUCTS

*Automated misting equipment and applications for **odor control**, **pest control**, **environmental cooling** and **dust suppression**.*

*Patented and proprietary solutions for commercial odor management such as **municipal waste transfers**, **compactor sites** and **commercial trash rooms** (e.g., restaurants, shopping malls, hotels and hospitals)*

*A proprietary Micronutrient Formula designed to propagate indigenous bacteria for industrial applications including **landfills** and **wastewater treatment plants**.*

ODOR CONTROL

Systems. Service. Solutions.

Ecolo has established over 100 licensed distributors, and has created first class products with turn-key sales, marketing and installation platforms. We provide extensive in-house and field training programs to support our distributors including hands on installation and sales experience, resulting in revenue growth for Ecolo and its partners.

Our Ecolo dealer network spans over 20 countries in 6 continents, including North and South America, Asia, Africa, Europe and Australia. Odor control is a large scale, global market and Ecolo is recognized as an industry leader.

OUR CUSTOMERS

Some of our most recognizable customer brands continue to ask for us by name...

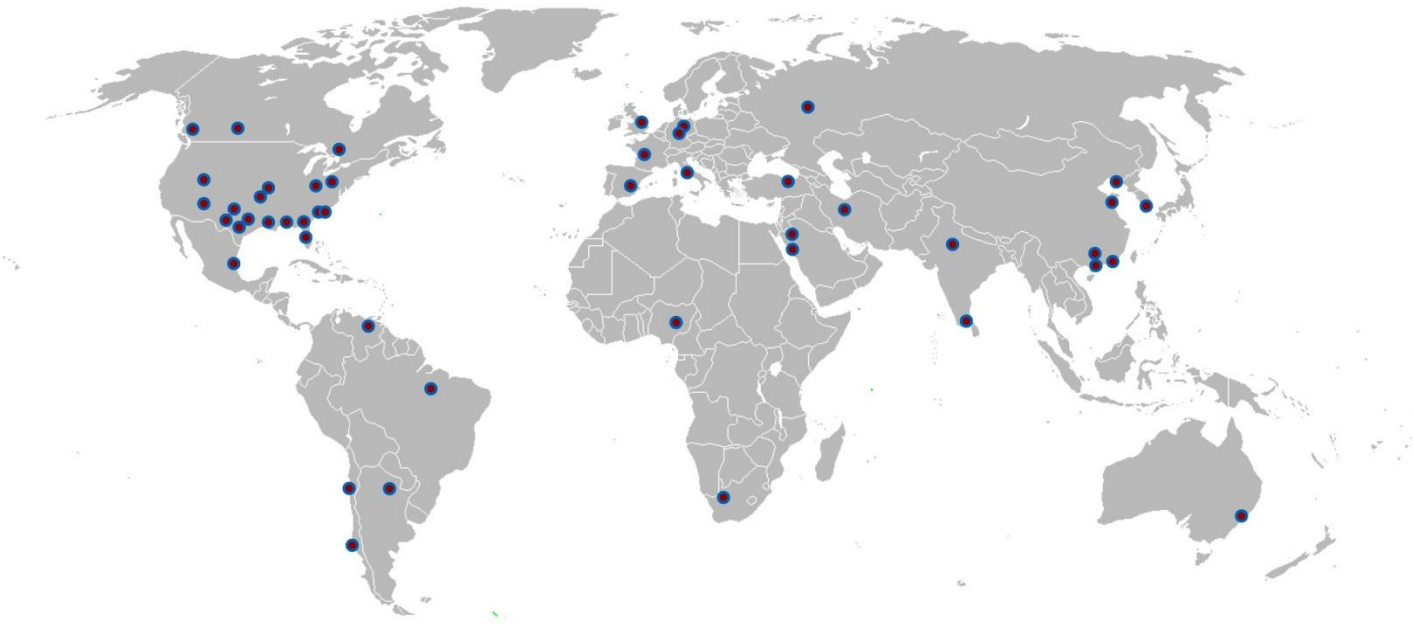

LICENSED DEALERS NETWORK

Over 100 dealers in over 20 countries

Ecolo has emerged as the worldwide leader in Odor Control Technologies with a global network of over 100 distributors servicing customers in more than 20 countries.

OUR MISTING SYSTEMS

Innovative engineering

- The AirStreme product line is a complete offering of technologically advanced automated misting equipment and solutions.

- Professional quality design and precision controls make AirStreme systems and solutions the preferred choice for such applications as odor control, pest control, environmental cooling and dust suppression.

INTELLECTUAL PROPERTY

Innovative solutions

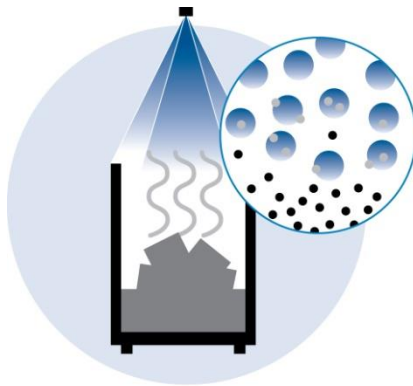

BioStreme[™]

The BioStreme[™] formulations have been specifically developed to enhance growth and reproduction of beneficial indigenous bacteria through engineered formulations of optimized essential nutrients. The proprietary formula consists of micronutrients, amino acids and complex organic extracts: the building blocks for growth and synthesis of new cell material. With the use of BioStreme, effective management of virtually any biological treatment process can be achieved and/or enhanced to provide increased treatment efficiency and operational cost savings.

INTELLECTUAL PROPERTY

Innovative solutions

-  Airborne Odor Neutralizer
-  Neutralized Odor
-  Odor

Ecolo AirSolutions are proprietary Solutions and Consumables designed to eliminate airborne and surface odors. All our products are completely safe to use and environmentally friendly – formulated with all natural organic compounds and essential oils. Unlike simple masking agents, our misting odor neutralizers contain powerful odor neutralizers made from essential oils, surfactants and aromatics.

Airborne droplets attract and neutralize odors through active chemical processes. AirSolution products give you the ability to provide comprehensive odor solutions.
